INFORMATION FOR TEACHERS

Lehrplan 21

Canton of Zurich
and Zug

«MISSION RUDOLF»

NOTES

You can choose where to start the riddle trail, you can also just seek out riddle locations individually.

Each group decides which riddle location they wish to go to and when (indicated on the map in the app).

This makes it easy to split up large groups. We recommend to not have more than 5 children / adolescents within one group. One device per two people is ideal.

In some locations, the riddle sequence splits into sub-sequences. When one sequence is solved, a code word pops up which you can pass on. This allows for further splitting of large groups, more interaction between the cultural detectives, and saves you time if needed.

COMPETENCES in accordance with Lehrplan 21

German: 1.B.1. / 2.B.1. / 5.B.
